

AN INITIATIVE LED BY THE COUNCIL OF HIGHER EDUCATION

Digital University Platform

Applications open on **Wednesday, 14 October 2026**

3 SCHOOLS

16 MODULES

ONLINE

FREE OF CHARGE

The **Digital University Platform** aims to train the qualified workforce that will carry Türkiye's digital transformation, through applied courses in artificial intelligence, data analysis and green transformation taught by academics specialised in their fields.

The platform is led by the Council of Higher Education and coordinated by the Institute of Population and Social Research of Marmara University together with Yıldız Technical University, with the contributions of Türkiye's leading research universities: Boğaziçi University, Istanbul Technical University and Middle East Technical University. Application and participation are entirely free of charge.
